

# ENCOUNTER IN THE DARK WEB MEET THE HACKERS!

Learn from top hackers who have tested, breached and compromised global companies. Our hackers will share their deep insights on the hacker threat landscape, as well as discuss real-world examples and cases of actual cyber attacks. Cybercrime has a cost, empower yourself with the knowledge to protect and grow your company.

#### Key Discussion Points:

- Real stories from real hackers
- Hacker motivation, communication & global community
- Companies at high risk of cyber attacks
- The role of Artificial Intelligence in hacking
- The Dark Web
- The future of hackers and hacking in a post-COVID-19 world
- Deep fakes
- Organised Cyber Crime

#### We're empowering:

CEOs/CTOs/CIOs/CISOs  
Non- IT Professionals  
IT Professionals  
Management Executives  
Business Analysts

#### Hosted by Top Cybersecurity Experts:

Dr Thomas Matheus  
Dr Meera Sarma  
Grant Newton  
Juan Piacquadio

**Jake Leslie Davis  
Hacker**

Jake was a member of the hacker group 'Anonymous' and was arrested and convicted of a number of infractions including assisting criminal activity. After serving his time he now informs a wide audience about the 'hacker culture', cyberwarfare and much more.

**Jamie Woodruff  
Hacker**

Jamie entered the public eye when he successfully hacked Facebook as part of a dark-web competition. He has since uncovered security issues in numerous high-profile operations and finds existing exploits by infiltrating global companies.
